

COMPASS

Exclusive Customer Portal

Secure Customer Interactive Gateway

Drilling Tools has made the ordering (and reordering) of products a lot easier with its exclusive Customer Order Management Portal and Support System (COMPASS). Registered customers can look up the tools they need, place an order, check on its status, and keep track of previous orders – all in one place without having to deal with emails, phone, or fax. Direct ordering through Compass can expedite the ordering process while avoiding miscommunication. The site also offers an advanced search feature by type, connection, diameter, and other variables.

COMPASS ADVANTAGES

- Easy-to-access attributes to product lines
- Place orders and check on their status
- Look up past and current orders
- Ability to revise active tool orders
- Bookmark favorites
- Advanced search feature
- Simple repeat order placement
- Update capabilities to individual contact info
- Accessible on both laptop and mobile devices
- Optional email notification for orders received, ready to ship, and shipped

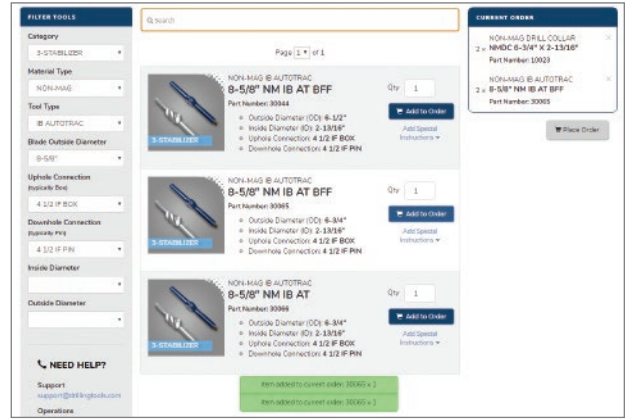

To register for access to Compass, contact your Drilling Tools sales representative.

COMPASS FEATURES

Catalog Screen

The **Compass Catalog Screen** allows the user to search the tool catalog and place selected items in a dedicated shopping cart. The side menu includes filters to find specific tools. Once the tool is identified, it can be added to the cart by clicking on the **Add to Order** button. Compass keeps a running total of tools that have been added to the cart on the right side of the screen. Once all selections are made, click the **Place Order** button under **Current Order**.

Checkout Screen

The **Checkout Screen** allows the user to add the ship date, header information, and special notes/instructions, as well as include attachments. By entering an optional API Number, Compass will automatically populate **Rig, Operation, Well,** and **Location** fields. The user can also manage their contact information to get updates on the order progress.

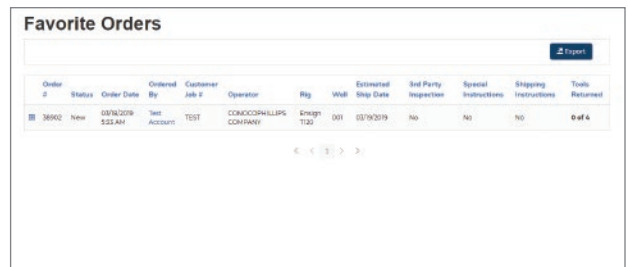

Order Screen

The **Order Board** is a quick look at the status of the customer requisitions. From here the user can check status and details of both past and current orders. In the **Order** view, the user can edit, repeat an order, or add it to their **Favorites** list.

Favorites Screen

This screen displays the user's pre-selected favorite orders. By clicking on the **Order Number**, the user can easily reorder the tools. This is a time-efficient feature for repeat tool requisitions. Please note that the header information must be filled out each time.

Drilling Tools International, Inc. is a leading provider of downhole tools to the land and offshore drilling markets. For nearly 40 years our company has been guided by the principals of Strength, Innovation and Performance. We consistently deliver world class customer service while providing quality products that meet the demanding drilling applications of today's market.

Our Quality Management System is certified in compliance to ISO 9001, and API Spec Q1 and our manufacturing is licensed to API Spec 7-1. Our Quality Management System governs all of our processes from planning, to process control, to delivery. This ensures that we consistently manufacture products that not only meet API standards but also meet the ever-changing needs of our customers.
